

## Advocator System® Management Portal (ASMAP)

The Advocator System® provides a web-based, interactive litigation and legal services management tool, which may also be utilized for handling non-legal service providers/vendors.

Offering a single site, database repository for all the client's vendors and professional service providers is a key feature, and allows for control over selection, assignment, rates, fees and all other expense charges which accrue against the claims or legal case file.

Managing Legal and Non-Legal Service Providers:

- What are the Benefits of the Advocator System® Management Portal?

ASMAP helps clients and Advocator System® users to gain easy access, via a "single sign-on" entry screen, to the database sites relevant to their business unit, department, or areas of responsibility.

Legal and non-legal professional service providers can use this feature, and clients are then empowered to better manage and control the activities and all associated costs on their cases/matters.

Retaining all suppliers and vendors in a single database repository enables greater control over selection, assignment, and budgetary tracking: which makes this is a very powerful financial tool for the client!

- What is the bottom line?

ASMAP will help you to better manage and control all your legal and other professional service providers/vendor relationships and evaluate their performance. All tools are launched from a single sign-on, common, secure database, within the Advocator System®.

As a client user, accessing multiple functions and features is made available from one just one click!
