LSG

Legal Solutions Group

Legal Ops, Reimagined.

Identify costly claims

Catch the most expensive and complex claims within the first 30 days after FNOL, ranked by their predicted risk/importance.

Forecast litigation risk

Proactively predict whether a claimant will retain a lawyer, whether the lawyer will file suit, and many other claim developments.

Provide decision support

Let claim adjusters make better decisions throughout the lifecycle of a claim, with a ~10% total reduction in ALAE on average.

Triage claim adjusters

Assign the correct adjuster to a claim based on its complexity and risk, and the adjuster's capacity and experience in handling claims.

Why choose Legal Solutions Group?

We've generated over $1.2B in client value

Legal Solutions Group, LSG, with its global footprints, has delivered $1.2 billion dollars in value to clients with its Legal Solutions and AI technology.

We focus on insurers, self-insured companies and TPAs, reducing ALAE and indemnity through impactful AI and machine learning based predictive analytics models.

As a privately held business, our focus is on customer success. What other businesses call customization, we call making sure clients' unique requirements are met.
