

Legal Practice Management Services

# An AI strategy for future proofing your practice

Solutions are broken down into three primary areas or buckets:

### Consulting

Understanding and comprehension of a situation and or a problem provides a backdrop against which to prioritize target areas of focus. That which will drive the biggest bang for the buck, so to speak.

### Services

Billing and invoice processing – helping to streamline the invoice submission process in a timely manner – via multiple ELM's or billing systems

### Technology

Data analytics – “helicopter analysis” across all offices, practice areas and attorneys/ timekeepers of the firm – in order to measure attainment of time recording, billed time and A/R

## Free 30-minute consultation on how your firm

Records time

Produces invoices

Pre-screens/audits against client SLA/guidelines

Manages its receivables

Monitors attorney/timekeepers attainments to key financial targets/goals

Utilizes technology including data analytics

Plans to achieve its goals and growth ambitions
